ANNOUNCEMENT:

1. The Acting Chairman stated that a final draft of the SIC study on Soviet Science and Technology was being prepared and copies would soon be distributed to the EIC members for final concurrence [disseminated 14 March]. The ORR comments and alterations are believed to be in substantive agreement with the approved contribution of last September. However, since there have been many drafts of Soviet Science and Technology, with a statement in the Preface that the paper has been approved by the EIC, the Chairman is anxious for the Committee members to have an opportunity to check the final draft.
